Bartlet's Buildings
10. Dec.r 1720.

Rev.d Sr.

I beg leave to remind you of the ~~reminding~~ you will excuse the liberty I take of humbly Canons & the Members of Christ Church College to assist in ~~the~~ defraying the charge of the Impression of the N. Test. in Azab and Syriac but the Impression having been extended to 10. thousand Copies, has encreased the charge of binding which at 18.d a book will come to 750.l. an article not yet provided for, and therefore if you please to recommend it, to their consideration it is not to be doubted but they will be pleased to countenance a design so much for the Honour of God & our Nation to which the Bp of Bristol has been a Benefactor and at the same time was pleased to give assurance that his good Offices should not be wanting to promote a collection at Xt Chs when he should be preaching there. I submit it to you whether now be a proper Juncture and how far the Example of Christ Church will influence other Colleges to encourage the undertaking. Dr. Dobson, Dr. Pardo, & Dr. Felton, are so good as to be Receivers of any Benefactions on this score to be conveyed to the Society, and if D.r Tanner be at Oxford, he will undoubtedly give any assistance in his power for facilitating such a design. I should have wrote to him on this subject, but if you please to communicate this Letter to him it will have the same weight & as application. May not a Letter. Excuse my giving you the trouble of another application

humble Sr
I am with great respect
Rev.d Sr

Bartlett's Buildings
11th. Dec.r 1728.

My Lord,

The Messenger of the Comm.rs for relieving Poor Proselytes, waits on your Lord.p, with a Receit for such a Benefaction as you was pleased to favour them with the last, and for several Years preceding, which the Comm.rs always gratefully acknowledge, but without prescribing to your Lordship the Measure or Continuance of your Charity otherwise than is consistent with your Lordships Charitable Inclinations. I am

My Lord Your Lordships
most obed.t Hu.ble Ser.t

Copy of the Receipt.

Decemb.r 1728. Received of the Right Reverend the Lord Bp. of Winchester, Ten Pounds as his Lordships Benefaction towards relieving poor Proselytes in such manner as the Comm.rs for managing that Charity shall direct. I say received for the said use by me

Henry Newman.

To Mr. Gibb
at Bristol.

Bartlett's Buildings.
26th. Dec.r 1728.

Madam, Mr. Cobsworth being gone out of Town, Mr. Saunderson sent to me yesterday to meet him some time to day to pay the last years Rent for your Chamber, and to deliver up the Lease and Key. I sent him Word that I had no authority to act therein for you, but as you gave it me from time to time, Nor have I the Counterpart of your Lease to exchange with him, but that I would write to you by this Post for your orders.

I don't know whether Mr. Cobsworth was obliged to give you Notice of his Leaving them, but it had been kind if he had, and there would have been a Chance for getting a Tenant to go into them when he went out whereas now they will yield Nothing this Quarter, and Lady Day is the worst time of all the year for letting Chambers it being the time of year that most People think of nothing but going into the Country, and the Quarter after that every Body is out of Town in a manner. I don't

I dont know what your Interest is in town but if you have only one Life, I think you had better stay'd, when you have consulted Mr. Reddeman who knows they are not suitable for a Counsellor at Law) if you can have a responsable Tenant for him,

My Chambers were vacant 6 Months before I could get a Tenant for them, and then I was glad to take a Tenant at 12 £ p. and after laying out about 16 £ in Repairs for painting &c. to get a Tenant up three pair of Stairs which the young Men don't love tho' in Reality they are in that Respect better for a Student by that Light till Business to practice the Law.

I have still in my hands a small Ballance on your Account with you I should include to give to a poor Pensioner of good Mr. Shute's, and said you do me the Honour of calling upon me for it, before you left the Town, but I had not that favour and only saw Mr. Gibb. once at our Commons, which I did not take as a Visit, having no Business to make at to speak to him. I wish you and your Family all the innocent Pleasures of this Festival, and many happy New years to enjoy it. I am &c.

D.r Sr. I am to thank ym for yr. kind Letter of the
6th of last month, with the Contents of wch the
Society were very well pleas'd, and desire the contin:
=uance of yr. good offices in the affair of Col. Waller
in such manner as ym & your Comit shall think the
most effectual & shortest way to bring him to reason.
The Parliam.t being prorogued to April I suppose his
Privilege is out for the present. I am endeavouring
to enquire out the witnesses to his Bond Mortagh
being a noted name in Ireland 'tis hop'd W.m Bryan
Mortagh may be heard of there, and as for Charles
D'albenac, I hear one of that name is a French
Refugee & has a Pension in Ireland, so that he may
very likely be heard of there sooner than here.
I acquainted the Bp of London with what ym say
of His Ldp's Letter abovementioned being reprinted in
Dublin & yr. opinion of it, wch wholly His Ldp seem'd
very well pleas'd. I wish you could put me in away
to make a small remittance to ym of 50.s or 3. l. for a
poor Proselyte that wants to go over to Ireland
but for fear he shd return as others have done to
Brabant or Flanders, we advance to him part here & the
rest to be paid when he arrives in Dublin.
I wish ym many happy New years & am

Yr

My Lord

The Attorney General having for a long time had a Copy of the Bill intended to be brought into Chancery relating to the 4000.£ Legacy to the Society from Mr. Palmer, though he promis'd to dispatch it in the Holidays for fear of loosing another Term, I took the Liberty Yesterday to desire Dr. Lynch to lay a Copy of it before your Grace, as approved by Mr. Melmoth, a Learned Councillor for your Grace's Approbation, and beg Leave in a few Days to wait on your Grace for it, in order to it's being filed, after I have obtain'd your Grace's and the Bp. of London's Approbation of it.

My Lord

The last Ships design'd for Fort S.t George are expected to be this year
dispatch'd this day Senight, against which time I shall be glad to receive your Grace's Commands to Mr. Schultze and the Missionaries on that Coast. I am &c.

Rev.d S.r I rec.d y.r favour of the 11th Curt. and having been communicated the contents of it to the B.p of London so far as related to him, His L.d.p took very kindly the information you gave of his having omitted to Ordain 3. unworthy persons but as you don't name either of them, we could only guess at one by the description you give of his being a Soldier, whose case was thus, a person who had been admitted to Deacons orders, by the late B.p Gastrell of Chester, and finding himself disappointed of Preferm.t and falling under straits to get his Bread, was at last necessitated to leave his Function & absolutely to list himself a Soldier, but his behaviour in the army was so modest, and becoming a good man under misfortune, that the Officers under whose command he was, could not help taking notice

notice of him, and enquiring into his character soon discovered what he was and how he came among people of so different a profession, and withall finding him a man of Learning as well as Virtue their compassion was so far excited that they joyned in using their good offices to him getting him removed to a Station more suitable to his inclinations, and as they thought to his interest, and thereupon recommended him to the Bishop of London who upon examining him, found him a man of Learning and as far as could be judged upon the best enquiry of probity he could make, a man worthy of his Patronage so that he could not with any decency refuse a person so qualify'd & recommended, much less suffer him to return to carrying a Musquet, and this was no addition under the character of a Deacon in the Church. His Lordship therefore put him under a Probation of several Months, and his behaviour in that time perfectly answering his expectation, he offer'd to ordain him a Priest on condition he would go to the Plantations where his Service in that Function was wanted, and whether he are inclin'd to go and by the Acct. His L.p has since had of him he has acquitted himself as a faithfull Min. of the Gospel to a Garrison under the Comand of Col. Philipps Gov. of Nova Scotia & Newfoundland; but his Residence this L.p thinks is at Placentia. If this be one of the persons your mention & you will name the other persons pointed at in the other y.r Letter His L.p will readily signify whether he is concern'd in ordaining them & if so upon what Motives, and be thankfull to you or any body else that will prevent his making a mistake in so important a Matter as concerning Ordinations; which he can be but ever loath Desirous to Solicitous to have the best information before the Character

By the Eyles & Grantham

I rec'd yr. Lett. of the 10th of Jan. last year 1727/8. and the duplicate of it, by the last Ships from India, which having been communicated to the Society they were much pleas'd with readiness to understand your accept of being their Corresp. for what relates to the Mission and other things which they will have occasion to recommend to your care. Mr. Higgins's being dead, Mr. Turner & Wendy come home and find that Mr. Lesse being also dead, you are the only person to whom I can take the freedom of consigning the Cargo now sent by order of the Society, for the Service of the Mission on board the Eyles, for the Service of the Mission. The Rev. Mr. Corfet goes over in the same Ship to succeed Mr. Lesse if it pleases God he arrive and being chose a Corresp. Member he will readily assist you in conveying the parcels as mentioned in the Invoice, to whom therefore I must desire you would be pleas'd to communicate the Invoice for his information, his constant hurry in embarking himself & family having deprived me of the pleasure of conferring with him here, on the Subject, as both of us wish'd to do.

The Society are very well pleas'd with the application you have made of the Interest of their Fund in the Elmire Stock towards supporting Mr. Schultze in his extraordinary expence for erecting a Malabar School in yr. Black Town and as they made him a present last year of 30. l. Sterl. in pt. of 8. so they have this year sent the present to the like value being 100. ounces of pt of 8. & foreign Silver in a Bagg by it self put up in the Company's Chest No. 358. which they desire you would deliver to him by the Eyles or in case of his Death to any of his Colleagues the Danish Missionaries who may supply his place but if he should be dead and neither of his Colleagues have

have supply'd Cis at Fort St. George
place it is desir'd ym would
lodge the same in the Church Stock recommending it
to the Minr & Churchwardens that it may be
put out to Interest with the rest of their money
till further order.

In the same Chest N.o 358. there is another
Bagg cont. 179. ounces of foreign Silver to the Val
of 50 l. which Mrs Forde has lately left here for
the Service of the Mission at Tranquebar as the Missiona=
=ries shall direct, ~~towards a perpetual Fund~~ and
though the Society have not yet receiv'd the
Legacy they have order'd the transmitting
of the money to ym, desiring it may be plac'd in
the Church Stock under the name of her Legacy
and that the Minr and Churchwardens would
be so kind as to allow Interest for it to be apply'd
from time to time according to the direction of the Will.
the 1.st Year 1725. in the following words. "I leave to the Society for Propagating
" the Gospel in foreign parts Fifty pounds to
" be sent to the Missionaries at Tranquebar.
The Society for Propagating the Gospel in foreign
Parts have order'd their Treasurer to pay this Legacy
to the Treasurer of our Society as soon as it shall
come to his hands, and it is their desire as well as
that of the Society for Promoting Christian Knowledge
that it may be ~~made~~ apply'd towards making a
perpetual Fund for the support of the Mission, as the
Missionaries at Tranquebar shall direct; The other
Chest cont. 1863. ounces of Silver in a Chest by it
self mark'd S P B N.o 11. is to be sent to Tranquebar
being remitted by order of Messrs Ziegenhagen and
Madrig to be apply'd as their Letters have directed.
I think the Invoice it self will explain the application
of other things, only I may observe to ym that of the four

Chests

four Chests of Beer only 2. of them are presents
the other two being paid for by the Missionaries at Trangebar
at their own desire, which is the reason that only
½ a Chest is sent to Mr. Schultze, and because he
could not partake of the Cheese sent to Trangebar
there is a Cheese sent with his Beer, but how
far that presents of Cheese are acceptable either
at Fort St. George or Trangebar they have never
yet signify'd, and if any thing else would be more
acceptable it would be kind in you to signify what
perhaps their modesty wont suffer them to do.

Mr. Emmerson was telling me that the value of two
Chests of Beer could laid out at the Maderas by
some Capts. to whom it might be recommended
would produce one Chest of Wine of more value
than the Beer at Fort St. George. If the Missionaries
are of that opinion I should be glad to know it
and cannot doubt of the favour of the Court to indulge
the liberty of sending a Chest of wine in the manner
propos'd if that would really be more acceptable.

If you have thoughts of coming home early the Society
would be glad you would recommend
some Gent. of the Count to whom they may addres
themselves to take care of their Interest with the same
freedom as I do now to you.

The Society are glad to hear of the flourishing State
of yr. Ch. Schools at Fort St. George & Fort St. David,
and they hope your generous example may prompt
other Gent. where there are a number of Children
that want the means of a Christian Education to
imitate you particularly at Bengal &c.

I often enquire of the welfare of yr. Child. here
and hope to have the pleasure of seeing them when
the days are longer at their School at Newington. I heartily
wish you all manner of prosperity and am

Sr. Yr. most obed. humble Servt.

The little book abovementioned was sent in the packet left at yr. house.

As to what relates to the ~~Childn and to the~~ Mission and to the Childn. I beg leave to refer you to my letters to Mr. Turner & Mr. Schultze for the former & to the Minr. & Churchwardens at Fort St. Geo. for the latter.

Rever.d Sir,

I just now parted with Dr. Gray who has promis'd that the Library for Burwell shall be ready to be sent to you the latter End of the next Week, and by Mr. Goldwire's advice I have desir'd him to send it by Edward Gilham from the 2. Swans; but as the Dr. is very assiduous and indispos'd this hard weather you will excuse him if it should not be sent precisely at the time he promises. There wanted in your Letter a Signification of the Name of the present Incumbent, and whether he is content to comply with the Condition of having this Library viz. To make a Catechetical Discourse every Lord's Day, or to catechize the Children or expound the Catechism which he does not do at present. But it may be I have mention'd this before to you, or that Mr. Gardiner has acquainted you with it, and that you have given an Assurance to him that the Condition should be complyed with.

The Bishop of London's Letter which you desired were sent last Friday by Leigh Carriage paid here 6.d but by the Blunder of my Clerk he had directed the Bookseller to send a Dozen in stead of 6 a Doz. if you can't dispose of them and will return 6 of them the Bookseller will take them again.

As you made no Signification to W. Ziegenhagen W. Colleagues that ~~might~~ may happen to be at Fort S.^t George, or elsewhere on y^e Coast of Coromandel.

As to the Silver in the Box N.^o 11. cont. 1863. Pounds, that is to be applyd according to the Directions which you will receive from W.^r Ziegenhagen & W.^r Martini jointly or separately. The Original receit for it is sent under cover to W.^r Schultze by the Ryder, and you have a Copy of it here inclosed.

The ~~Society~~ first part of y^r. Diary ~~came~~ for 1727. came to hand, but W.^r Martini expecting to receive the whole Diary for that year soon after, sent it forward to Germany & Denmark by the 1^st. opportunity.

The Society will be glad to know the contents of that Diary and for the last year, which they hope the next Ships may bring, with an Acc.^t of your extending your Instructions for propagating the Gospel among the Heathen in the Countries bordering on Tranquebar, and the Coast of Coromandel. The Society are glad to observe that you keep up a Correspondence with the Dutch Clergy in ~~Europe~~ their Settlem.^ts & hope

hope ym may be mutually serviceable as Brethren

to Mr: Lehnitze wch I doubt not but he will com=

His Grace. a short acct. of yr. progress at Trangebar
it will be very acceptable. The late King being
dead, ~~and His portion~~ to whom yr. Letters were
always very acceptable, if ym continue to write
to Her present most gracious Majty there is no
reason to doubt but yr. Letters would be very
acceptable: I might say the same of our present
King but as he is more engag'd in the publick
affairs of his Kingdoms than the Queen, ym can't
expect to readily an answr. from His Majty as
from the Queen, to whom ym may freely ex=

Perhaps also if ym made a compliment to the
Dutchess of Kendal who continues at our Court &
I hear is annually a liberal contributor to ym at the Collection
in the Royal Chappel it would be an Entertain=

dispose Her to be hereafter a greater Benefactress.

serious, yet that they must die is a reflection that is
not to be avoided but will one time or other make impression
upon them, and they may then [illegible] it worth their while
to consider whether if living well be the best preparation
for death, and it is not worth their while to endeavour at
least to spend some part of their life at last in doing what they
shall wish they had done when they come
to die.

It is to be hop'd that every Harbor affords some
where there are a Numb. of Inh.ts
whom so well disposed as to be able & willing on the
Lords Day to read some of these practical
Tracts to the Inh.ts who cant read, and if they wont
assemble themselves on those occasions, as I remember
was formerly done at W.m Nevey's at Bonarista it
would be doubly acceptable in the sight of God if such
person would condescend to go to the lower families
& offer his Service to read to 'em on Sundays a little
Lecture concerning the present & future State of Mankind.

I know a Min.r who when his Parishioners would not
come to hear him on the Lords Day, he went to them
and preach'd to 'em in their houses, the consequence of which
was that they came to Church regularly afterw.ds and
took another time to give & receive visits, than at the
very time that their duty required their attendance
at Church.

I shall be glad to know the Number of the Inh.ts
at Bonarista and the place you visit as near as can
well be computed that are constantly resident there
and to have a more particular acco.t of the Danish
Settlem.t at Greenland which you mention. And

L.d'p will observe with what zeal the British Interest then opened & maintain'd & in what Situation the Chappel extract of another Letter which lately came to my hands how different a Situation we are in respect to Britain at present which must occasion great triumph among the Enemies of the Protestant Religion Interest.

There was an attempt the last Session of the preceding Parliamentary to obtain a Support of a Chaplain there by such a Duty on British Commodities but the Novelty and danger of making such a precedent I suppose occasion'd its being drop'd, and without doubt it was presum'd the Govern.t could always find means to support such thing as well as in other Plantations without calling in the aid of an Act of Parliam.t of the like nature abroad.

I humbly presume Sir to recommend my Friend to your Lordp.s favour and Regards on any Occasion wherein he may stand in need thereof. I have that Esteem for him from an old and Personal Acquaintance, that I trust he has been and will be always an Ornament to whatever Communion he belongs. My Lord Cowper once made him the Compliment, upon his Dedication of a Sermon to him, "That if the Dissenters preach'd after that manner he must even revoke his late Vote, that the Church of England was in no Danger." I shall wait the orders of the Society about complying with your desires for returning your translations, & if you would allow me to give you so much trouble as to send a Copy or the original of my last Letter to you on this Subject, I shall be better able to correct any thing that might have offended you in my manner of writing if you would oblige

My Lord

I had the Honour of your Graces Letter of the 9.th inst.t and now of the 19.th which shall be laid before the Society at their first meeting. That of the 9.th being already Communicated to them they resolvd to have a meeting extraordinary next Tuesday Sennight to consider of all the Advices relating to the Mission, except the Journals which cannot be so soon translated.

For fear the Advices sent to your Grace from India may not be so particular as those the Society have received, I have taken leave to send herewith Copies of the principal of them that your Grace may the better Judge of what is wanted, and favour them with your advice as you shall think proper.

And if the sending of One or more Missionaries should be thought necessary, whether they shall be ~~thought~~ English or Germans (from Hall) will next be considered, together with the means of Sending them over & Supporting them in India.

Your Grace can best Judge whether there be any Vacant Cures in the Gift of the Crown that may be obtained & appropriated for this Service.

And if ~~ffor~~foreigners are employed whether they can be applied for their Support?

The Interest of our little ffund in the Church Stock at ffort St George is reduced from 7 to 5 p Cent by an Advertisement in last Saturdays Gazette which will obliges the Society to use all their Industry to make it up some other way.

They are much obliged to your Grace for the concern you are pleasd to express for promoting the Welfare of the Mission and hope by your Graces good Offices and advice with the Blessing of God to see their desires accomplished.

I am with all possible respect

My Lord.

The Society have lately rec^d several Letters from Fort St. George on the Subject of the Mission, Copies of the principal of which I have herewith humbly laid before yr. Lordship. The Contents of them are of that moment that the Society have appointed next Tuesday Sennight to meet extraordinarily to consider what to do in answ^r to them, & would be glad to be favoured with yr. L^dps advice in writing since they cannot hope for the honour of yr. Company.

The Matters chiefly then to be considered will be. Whether to send one or more Missionaries by the next Ships to Fort St. George? And if so Whether they shall be English, or Germans from Hall? How they shall be supported? Whether any favour may be expected from the Crown to a design so important, by the good offices of yr. Lordship or any other friend to the Mission? Whether any Fine Cures in the disposal of the Crown may be obtained for this Service? And such other consideration as the perusing of the Letters will suggest to yr. Lordship.

The impressions made upon the Heathen are more promising now than ever, and if the Missionaries are well supported from Europe, a glorious Harvest may be expected.

The late King by a Letter to the Missionaries, dated 23. Aug. 1717. was pleased to make a gracious Promise of affording them His Royal Assistance, at a proper season, but His Maj^ty has not liv'd to accomplish that Promise. And

How their Present Majesties may be pleased to countenance the design can best be judged by Yr. Ladyships.

The Missionaries have wrote to both their Majesty and to the Prince of Wales, and Mr. Lidy Schragen has undertaken to present their Letters together with a Copy of the printed Accot. of the Mission, by which it will appear what a noble Effort the King of Denmark has made in his Territories in India, and with what Success.

I have taken the liberty to send Copies of those Letters to his Grace of Canterbury & doubt not but His Grace will be ready to do every thing in his power to further so good a work.

I am with all possible respect

This gives Yr. Ladyships acceptance of a Copy of the Society's last Circular Letter, which gives an Accot. of the progress of the several Branches of their Designs, and when I can inform Yr. My Lord The Society having lately read several Letters from the East Indies on the Subject of the Mission, I thought it my duty to send your Lordship Copies of such of them as might inform your Lordship of the present State of that Branch of their Designs.

They have agreed to meet here next Tuesday as an extraordinary Committee of all the Members now in Town to consider of sending one or more Missionary to the next Ships & particularly of the Methods of supporting them in their Design. The late King was graciously pleased to give hopes of his Royal Assistance to this Design, and tho' His Majesty did not live to accomplish his charitable intentions, it is hoped upon a proper application that their present Majesty's may be graciously pleased to encourage it.

By Order of the Society a Parkel of such Books as have been either bought or presented to their Store, since the Emission of their last Genll — Parkels, was sent to you in July last by Wm Coaldrop Carriage pd. of the receipt of which I should be glad to be informed, and this prays your acceptance of a Copy of their Circular Letter.

I have had Several Letters from Mr Sherman in some of which he wishes he could hear from you.

I found out at last Geo: Psalmanazar in a Lane going from Old Street to the Fleet fields, I found him almost blind but diligently instructing a young Amanuensis of 13 or 14 years of age to write Hebrew, as he already could Greek and Latin very well, Specimens of which he shewed me. I told him a friend of mine would be glad of his Company for a month in the Country, to give him an airing, to which he replyd Philosopher like (without so much as asking your name or where you lived) that he could not accept of the Invitation because he was so closely engaged in Press work. I asked him how he could correct the Press without sight, he told me he could see a little for about an hour every Morning which he carefully improved because his livelihood depended upon it. I could not help asking what it was he corrected, Hee told me, It was the History of the Art of printing a most ingenious performance which Jamaica told he is chiefly concerned in Composing though Mr Palmer the Printer has the name of it, and furnishes the materials. It is published in 4to and was intended to come out monthly at 2/6 a Book Stitched up in blue Paper of which 3 are already published, his worthy of your study and it will be an Act of Charity in you to Subscribe for it, both to the Composer and the Printer. Beside this he told me he had another great work upon his hands, and that was a Comment upon all the Difficult passages in Scripture, and that he might be able to commit his thoughts to writing he was training up a poor Mans Son to be his Amanuensis when he should be quite blind, and by what I See of the Lad he seems to be such another Genius as his Master. I hope you wrote last night without staying for the enclosed Paper, since Professor Franke does not want to know the Qualifications of a true Missionary.

It was not proper for me to insert in it that the Society will allow 40 ℔ p Annum to a person so qualified, but you can signify that, and I hope Providence will augment it, as the merit of the person shall recommend him: Something should be considerd of the Age and Constitution but that must be left to discretion, and I doubt I have already put too many Qualities to be expected in one person at 40 ℔ p Annum.

The Society must also pay his Passage and furnish him with many Necessarys some personall and others in relation to his Mission.

I hope you will give your Company every Tuesday while the Mission is under Consideration. I am

The Qualifications of a Missionary enclosed in the aforesd Letter are as follow.

Extract of the Revd Mr Stevensons Letter from Fort St George at Madras concerning the Character of the Missionaries to be sent thither.

.. Seeing the whole Success of the Mission must depend upon the Abilities and good
.. Conduct of the persons to be employed in it the greatest care must be taken in chusing
.. them; that so none may be sent out, but such as are not only learned and laborious
.. but likewise remarkable for their Prudence, Good Temper and Christian Zeal.

Beside his Learning, which includes a knowledge of the Latin Greek and Hebrew Tongues, it is wished that he might have a Genius for acquiring any Language because he must be able off hand to address himself to the Heathen in their own Tongue, there being above 100 Thousand People of different Nations at Madras only. That he be well read in the best Commentators on the Holy Scriptures, have a good Knowledge in Theology, Natural Philosophy particularly in Medicine and understand at least the Rudiments of Arithmetick, Geometry, Astronomy Musick and other parts of the Mathematicks.

Beside his Artificial Acquirements that he be Sincerely pious; of an Even dispassionate Temper; despise the getting of wealth in Comparison with the Labour of propagateing the Gospell for the Salvation of Souls; preferring a Competency of Food and Rayment to immense Riches without Contentment and the Grace of God; Tractable to and diligent in, all good works, addicted to no kind of Vice, endowed with great Humility and Patience if it should be his lot to meet with Difficulties: In one word a person who constantly aspires to imitate the Example of his Great Master the Blessed Jesus.

My Lord I had the honour of yr. Lordships Letter of the 10th. of last Month & communicated it to the Society who were glad to understand yr. Ld.p was on this side of the water being in hopes of yr. coming on to London, but now Dr. Bray has acquainted them with yr. resolution to return to the Isle of Man from Warington. I am therefore by order of the Society, humbly to signify to yr. Ld.p that by the last Letters from the E. Indies both from the Missionaries and others there is a very promising prospect of success attending the Labours of the Missionaries among the Heathen, as well in the English as in the Danish Settlemts. in so much that the Society are resolv'd to send by the next Ships, which will be soon after X may, Satisfactory Missionary to Madras if a person properly qualified can be found; They have therefore agreed to desire yr. Ld.p would be pleased to recommend such a one if you have any in yr. view as may be furnish'd with the undermention'd Qualifications viz. A comprehensive Knowledge of the Christian Religion and a Zeal to propagate it: That he have a genius for Languages so as to be able off hand to address himself to the Heathen in their own Tongue, there being above 100. thousand people of different Nations at Madras only

It is

It is likewise to be wished that he had some knowledge in natural Philosophy particularly in Medicine & that he understood at least the Rudiments of Arithmetick, Geometry, Astronomy Mechanicks & other parts of the Mathematicks.

And as to his moral Qualifications, that he be sincerely pious of an even dispassionate Temper tractable to & diligent in all good works; Addicted to no kind of vice, endow'd with great humility & patience if it should be his Lot to meet with difficulties. In one word a person who constantly aspires to imitate the Example of our great Master the Blessed Jesus.

These particulars I need not have mention'd to Yr. R.d but to inform the Candidate for such a Service what would be expected from him.

The Society on their part would defray all the Expences of the Passage of such Persons to India and furnish him with many Necessarys wch will stand them at least in 100. l. Sterling, and also be of Use from the time of his arrival at Fort St. George allow him after the rate of 40. l. p. Ann. in the money of that Country with wch they are informed a Temperate Man may live very comfortably considering his lodging will be gratis in a House hired or built for the Mission.

And as his conduct shall recommend him he may not doubt of the Society's kindness to augment their 1st Allowance.

Mr. Schultze who has liv'd above above 10. Years at Tanjore without any Allowance and now desires but 67: 10. - to devote himself to the English mission, the Society have agreed to allow him.

Ought to acquaint Yr. R.d that for a qualify'd Man cannot be found to accept of the Terms above, in so short a time, they have order'd the same

L.P.s power to procure them either, and if they can have another from Germany they hope to be able to send him, either now or another year as it shall please God to enable them.

The Society were pleas'd to hear of the erection of a Workhouse at Warrington & hope the Success of it may induce other places to follow their Example; I am glad to hear Mr. Wilson has join'd from Christ Church ye. L.P. & I doubt not of a mutual happiness attending to yr. L.P. & him in the pursuit of his Studies under yr. Direction L.P. I wrote to him at Xt. Church the 23d. of last month not knowing but he was there, and the Society's Packet was sent to him some time before under cover to Dr. Pardo. I beg happily your Lordships blessing & that my Letter may be acceptable to you & Mr. Wilson from

Worthy S.r

I rec.d both y.r Letters of 24.th Feb.y 1728/9 23.d of March last, and 8.th of May last by several conveyances and having communicated them to the Society they thank you for them and for all y.r pains in distributing the Arab. N. Testam.ts &c.a recommended to y.r care. As to what concerns the Errata I beg leave to refer you to W.m Sale's Letter herewith sent in one of the Ships bound to Scanderoon. The negative particle which was omitted Gal. 3. & 10.th was so material an omission, that the Society have caus'd the Printer to correct all the Copies now sent to you, and in the same manner they intend all the Copies that shall be hereafter sent, shall be corrected in the same Manner.

I have also put the Society in mind of what you recommended in y.r Letters of the 20.th & 29.th of April 1725 & 23. Nov.r & 17.th of April. 1727. concerning a folio Edition of the Psalter with the Annotations &c.a wherein they should have been very glad to have complyd with y.r desires, but it being the opinion of His Grace of Canterb. & other learned Members of the Society, that they shd. content themselves with sending only the pure Text of the Ho. Scriptures to prevent all Cavils from our vigilant Enemies the Papists: and the Society having been obliged to print a new Edition of the N. Test. which they have been enabled to print 10. thousand Copies of the N. Test. that large Impression has so exhausted the Fund for this Service that they are not in a condition to undertake any new Impression, nor can they at present call upon their Members to renew their Solicitations for further Benefactions to a design wherein they have so lately exerted themselves to the utmost of their power, but as to a Sett of the Antient Greek Fathers for the Arabick Library at Aleppo the Society

The Taste of learned Students at Cambr. is of late so much turn'd to the Study of Arabick, that the Professor of Arab. there has been oblig'd to print a new Grammar for that Language which is now in the Press. Mr Hearne of Oxford in printing the New Britannia, & Mr Herbert send English Copies of his Abridgm.t of the Hist. of Tithes and Calculations for Astrology.

a N.B. The Letter was sent by the Halifax Capt.n Baker

Society are very much disposed to comply with yr. Proposal for making such a present to the Patriarch for the Pub. Library at Moscow as soon as they are in a condition to do it, after discharging the expence of the Impression of the N. Test. when they can meet with a complete Set of them which are rarely to be met with all at once.

I have herewith cover'd an Invoice of what is now sent, and desired to pay the freight to each Capt. as Mr. Eaton thought rate it, but they both declined charging it, as a thing out of Course in their method of business, and therefore Mr. Eaton is desirous as to promise to get their Bills of Lading for what is sent by the Halifax to be delivered to yrn for Ten Dollars for the 3 Chests, and Box sent by the Great Britain for eleven Dollars Ster. Instead of the 2 Ships they goes 6. Copies of the N. Test. neatly bound for presents where yrn shall think fit to make them.

wch. you may please to draw upon the Revd. Mr. Andreas. Dd. on receipt hereof

The Box of 450. Catechetical Instruction &c. is what was intended to be sent last year, if the Ships had not gone before they could be got ready. The Society are pleased to understand they are so acceptable to the Revd. Clergy in yr. parts, and have therefore printed 5000. Copies to be sent to yrn as occasion offers. You desire to know who compos'd this little Tract. The abridgmt. of the Hist. of the Bible was some years since drawn up by the Learned Mr. Ostervald at Neufchatel in Switzerland, and the Catechetical Instruction by a Committee of our Society who afterwards submitted it to the approbation of the Grace of Canterbury, who was pleased to give several Touches to it, but the whole was translated by Mr. Daschi, and after revis'd by Mr. Bedford & Mr. Sale to whom the Society are very much obliged for their great & indefatigable pains in correcting this and the whole N. Test. gratis.

As to a Concordance the is neither of these Gent. have Leisure to compose one, nor do they think it can be done to the perfection it ought till all the other parts of the Bible are printed in Verse as those sent to yrn, beside the Expence is what the Society at present are in no condition of sustaining.

May God long continue yr. Health and Life so much devoted to his Glory as the wishes of the Society as well as

Hon.d S.r I yesterday recd yr. very kind letter of the 25.th Sept.r and this day communicated it to the Society who thank you for it, and desire you would give them thanks to the Person who is so charitably disposed as to contribute 100. l. towd the Support of the Revd W. Schultze at Fort S.t George, but that at present cannot be remitted sent to India till Decem.r next it will be time enough to remit it to the Society when you return to London. The Society would be glad to be informed as to the application of it, whether the Benefactor intends it for W. Schultze in particular or for the Mission in general as W. Schultze shall direct. which you will be able to inform them of after your return As to yr. other Proposal the Society seem'd much inclined to agree to it but thought it best to suspend taking a resolution till they heard what answ.r Professor Francke & his Brs. in Law wd make to the letters already wrote by W. Ziegenhagen and W. Martini, which is daily expected. I have not yet heard from the Bp of Man, whose L.p may be returned to the Isle of Man before my Letter came to his Hands. Mrs. Hedgepad and her Daughter both return their most humble Service to you, and little Miss Mary has recd the Tokens you sent to her and in her broken language returns them with all the Sense of Duty and Gratitude her tender Years can express. W. Bell sends his Duty to you and thanks for yr. enquiring after him; W. Downing is much better. Good W. Washington of Camb.d died a few days since of a Fever that has been fatal to many. Sir,

The Society incline rather to take 1000. Copies than a 2d Impression of Mr. Watts on the Terms you mention 6d & 9d. if he can't abate of it, on Condition that you take half of the Impression to dispose occasionally as they will be call'd for on the Terms of the Society. I told them I had no Commission from you to promise that on your behalf, but that I dare assure them you would do it, if the Society recommend the B. Books to their Correspond.ts as they have done the Bp. of London's pastoral Lre. Upon which they were pleased to leave it to me to adjust that with you, and that therefore you might agree with Mr. Watts.

I intend to wait on you to day, but for fear Mr. Watts should come on you first, I send this proposal for your Consideration to act as you shall be inclined, and I believe that you may depend upon their being all taken off, your hands, if you take half the Impression

I have herewith also sent a Mss. on the Subject of Infidelity whose Author desires to be nameless, of which he makes a present to the Society. It has been perused by some of our Bps. and they very much approve of it, as a well wrote thing in the plain way of Reasoning on the Subject, I am therefore impowered to tell you they will encourage the dispersing of it so far as to give it a place in their List, and recommend it to their Members to take them off, if you will venture to make an Impression for Encouragement, with it is hoped you may find your Advantage in, to which also I shall therefore be glad of your Answer to

Rever.d Sir.

According to your desire of the 19th of August the Books within mentioned are sent as noted at the Bottom of the Account and with they may go safe to your hands. I beg your pardon for omitting in my last to answer something I mention'd in your Letter of the 16th. Feb.

I received £2:7:3. and £2:7:6. was paid to our Messenger by Mr. Erwin for the packett formerly sent to you. As to a List of our Members the Society have always declined giving out a Copy for fear of giving Offence

Offense to some Members, who think as we are a voluntary Body, in point of prudence they should not publish their Names as incorporated Bodies do for disputing Elections &c. which will never be the Case of our Society while they live and keep in the Harmony they now do, but any Member whether Subscribing or Corresponding, are free to inspect the List when they give their Company at the Meetings of the Society, or call on me between Meetings. To publish a List of their Names would appear Ostentatious if it were to serve no other purpose but to inform the publick how many Lords Spiritual and Temporal and Members of the House of Commons do us the honour of being Members of the Society. However I may acquaint you that there are about 470. of Subscribing and Corresponding Members, the former only have Votes, and the latter though they have no Vote may be as freely present and give their Advice in all Debates. Some good Ladies also, tho' they can't be present, subscribe to be Annual Contributors, but if their Names were publickly known, would be extremely offended, as if they did their Charity to be talkd of, whereas they have now the pleasure of Reflecting, that they have no other View, but the Glory of God and the good of Mankind. When you come to London, I shall have the honour of satisfying you more fully on this head. The Religious Societies here in London for the same Reason are also concealed, and their respective Members only known to one Another, to avoid the Envy and other ill Consequences that might attend their being known. I thank you for y^r Account you give of the flourishing State of your School, and the Exemplary manner of your Conducting it. May God Almighty still prosper your Endeavours is the wish of

Revd. Sir. I receiv'd the 40 l. by yr. Bill payable to Mr. Paltock & Co. the beginning of this month and immediately gave notice to the Under Treasurer of the Temple that I was ready to compound the Duties, which he told me any time before Term would do, accordingly I writ on him last Saturday as soon as I could get out of a violent head ach which had taken me of a sudden and of other People, but he told me the Term being begun he must add Michas Term to it, I told him I should then pay it before it was due & appear a little ill to my Friend who had notice of the Charge he replyd I might then stay till the Term was over before the Office for last Term was clos'd and he could not

break in upon the Custom of the House. ~~The Lords~~
There has been several Gent. to see the Chamber
some complain of the height & others of the price, &
~~all~~ some expect their being new painted. I tell them
they are in earnest I'll talk with them and if they'l
take a ~~lease~~ lease of 'em for 7. year I believe my
Ld will give me leave to be at some expense to
make them ~~Chamber~~ as neat as they can desire.

The Lock is good as it fits the door but not worth
sending down to you, ~~because~~ I have enquir'd at
the great Lock maker at the Corner of Catharin's
street in the Strand ~~and~~ where they offer me a
new one for 2. Guineas with 3. hollow Keys, as
~~I stipulated~~ this has. Perhaps Mr. Coterworth might
give 3. or 4. Guineas to the Temple Lock Smith when
he took the Chamber, but he was always a Dear
man, and beside the price of those Locks is much
~~made~~ abated & new inventions are added to
those now made, so that if the Executors of Mr.
Coterworth won't let you have it for a Guinea
I should advise you would let 'em take it, when
they pay off the Rent at Xtmas. If Mr. Freeman
don't come to Town this Term I should be glad to
have yr. Directions abt. a new Lock, and whether
there was an Inventory of any things belonging to
the Chamber annexed to it, particularly a Marble
Slabb to the Hearth of the best Room w^ch Mr. Coterworth
they say laid, but I take it, that is fix'd to the free-
=hold and ought to remain there, for they can't take
it up without breaking it. and yet if they can take it
away

away it is better to allow something for it, rather than part with it. My humble Service attends yr. Lady and Family, and I beg yr to believe that I am

Revd. Sr. I thank yr for yr. kind letter of the 25th. of last Month, the contents of which having been communicated to the Society were very acceptable to them.

As to the Paragr. which yr ~~desire to find me to~~ communicate out of Prof. Hamilton's Letter relating to an Assistant Missionary, it was at first my design to keep it; and in lieu to shew the kind in you to make the Enquiry you did, and in lieu to shew the regard to it he has done, though I owe to you what I wrote on that head was not by any direction of the Society, and they are pleas'd to be silent as to any particular directions in answr. before otherwise than to thank yr for yr. advice & leaving it to me to acq. yr that before I wrote that Letter application was made to Prof. Frank at Hall by which Mr. Schultze himself was encouraged to desire such an Assistant to the Society, as there could be no doubt would be content to serve the Mission not only in Subordination to Mr. Schultze with whom it is absolutely necessary the Assistant should live in perfect harmony, but who also should carry no Scruples with him that might occasion any interuption to such a Harmony in a Design that will require their joynt endeavours to their vigorous to promote. Prof.r Frank has now signify'd his readiness to furnish the Society with such a one next year and Mr. Schultze being Episcopally ordain'd it seems necessary that his Assistant should go hence with the like ordination to prevent any possibility of a misunderstanding on that accot. The truth is there are some reasons why it were to be wish'd that a Briton might be sent preferable to a foreigner, if such an one duly qualify'd were to be found, but it seems at present a matter attended with too much difficulty to be obtain'd and therefore we must submit to wait on Providence for some more favorable disposition towards it. I am Revd Sr.

15. Novr. Before I could get a Frank for this I have the pleasure of telling you that the Bp of Man has recommended an Assistant Missionary the Revd Mr. James Christian Educated at Edinburgh, who is on the Road to London. when I lately waited on the Bp of London this Lp. assur'd me he knew Prof. Hamilton's Legend so as to underwrite a certificate he had of a young man who had offer'd himself for Holy Orders. I said I did not, and as this Lp is disposed to pay a great regard to any recommendation from the Professor if he would write a short Letter to this Lp to that purpose and instance of his manner of living I have reason to believe it will be very acceptable to this Lp.
